WOLF HOME PRODUCTS®

OUTDOOR
CABINETRY

WOLF ENDURANCE

ENDURANCE

Wolf Endurance is affordable deck, patio, hardscape and garage cabinetry designed to last a lifetime. Aluminum construction provides superior strength and performance. Endurance cabinetry will not rust, swell or warp from moisture and is highly resistant to mold and mildew. Plus, Endurance is lightweight and easy to configure and install.

Endurance Cabinetry provides customers the freedom to utilize cabinetry in almost any setting, including elevated decks, roof top decks, patios and garages.

LIGHTWEIGHT

Easy to handle and install.

Freestanding - Shaker, White

Hardscape Insert - Flat, Black

EASY TO CONFIGURE AND INSTALL

Custom configurations and adjustable legs that accommodate every surface.

ALUMINUM CONSTRUCTION

Endurance cabinetry's all aluminum construction is comprised of bent panel subassemblies with welded inset frames that provide outstanding structural strength and aesthetic appeal. Freestanding cabinets and hardscape inserts are available with Flat and Shaker door styles. All door and drawer opening are sealed with a EPDM D-Seal to insure a weather resistant interior. All exterior hardware is 304 stainless steel, again making it perfect for outdoor applications.

Structural Reference: 36" wide open cabinet is stable up to a 750lb static load.

ALUMINUM CONSTRUCTION

Durable construction at a cost substantially less stainless steel.

FULLY ASSEMBLED

Freestanding and ready to use right away.

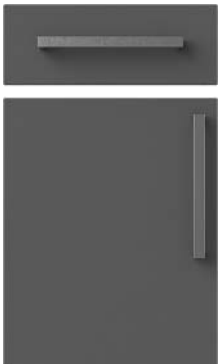

SEALED STORAGE

Keeps supplies dry inside, and rain and moisture outside.

DOOR STYLES

FLAT

- Flat Panel Door Style
- Flat Panel Drawer Front
- Inset Door and Drawer Front
- Available on Freestanding and Hardscape Insert Cabinetry
- Colors: Ash, Black and White
- Hardware included

ALUMINUM COUNTERTOPS

- Aluminum countertop is 1 1/4" thick
- Constructed of .090 gauge material
- Fabricated to your specific Endurance cabinet and appliance layout
- Powder coated finish
- Four depth choices
- Four color choices
- Can be used in outdoor environments, including salt air and water
- Does not rust, corrode, swell or warp

Textured Black

Walnut

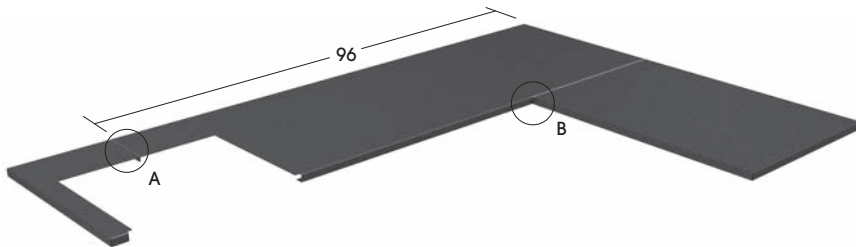

Silver

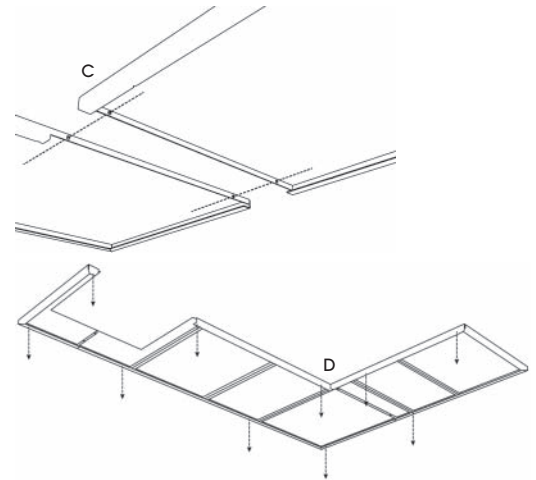

Copper

ALUMINUM COUNTERTOP SPECIFICATIONS

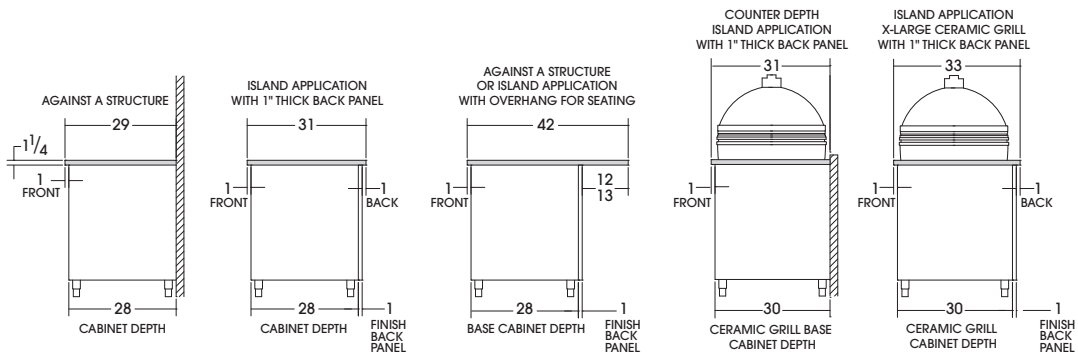

- Countertop sections can run up to 96" long without a seam
- (A) Seams can be hidden behind appliances
- Seams can not be hidden behind sink openings
- (B) Directional changes (L-shape or U-shape) require seaming multiple tops
- (C) Sections are joined using bolts through pre-located holes
- (D) Tops are secured to top edge of cabinets using sheet metal screws through underside of top
- Seams and joint between top of cabinet to be sealed with silicon or gasket material

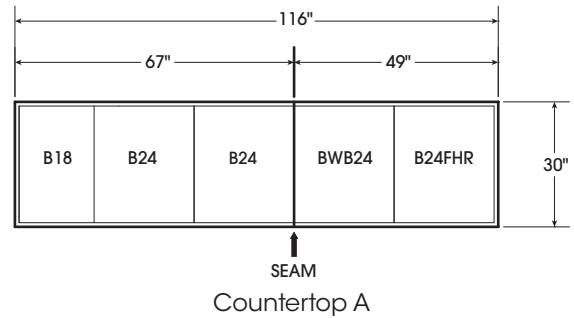

ALUMINUM COUNTERTOP DEPTH

- Aluminum countertops are available in four depths: 29", 31", 33" and 42"
- X-Large ceramic grills may require a 30" deep cabinet
- Countertop overhang for seating should be structurally supported

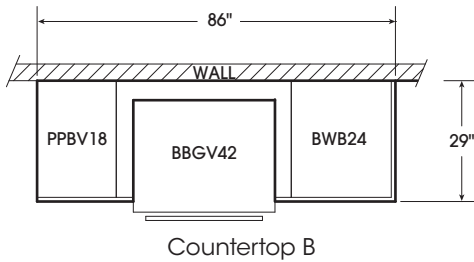

ALUMINUM COUNTERTOPS

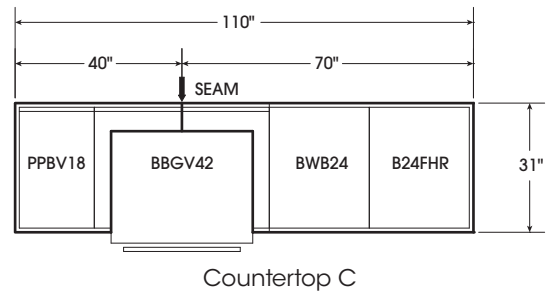

- Countertop widths can run up to 96" long without requiring a seam
 - Widths come in 1" increments
 - When planning for a seam, two sections of countertop should connect between two cabinets for structural integrity and fastening (Countertop A)
 - Countertops less than 96" long having an appliance cut out are one piece (Countertop B)
 - Countertops greater than 96" long with an appliance can have a seam at the appliance (Countertop C)
- Note:** Seams may not be positioned at a sink
- Multi-directional Countertops require a seam at a 90-degree turn (Countertop D)
 - When Overhang for seating should be structurally supported (Countertop D)
 - X-LARGE Ceramic Grill Bases are 30" deep. Seam to always fall where the cabinets transition from 30" to 29" deep (Countertop E) Layouts B, C, and D are Endurance combination cabinet layouts

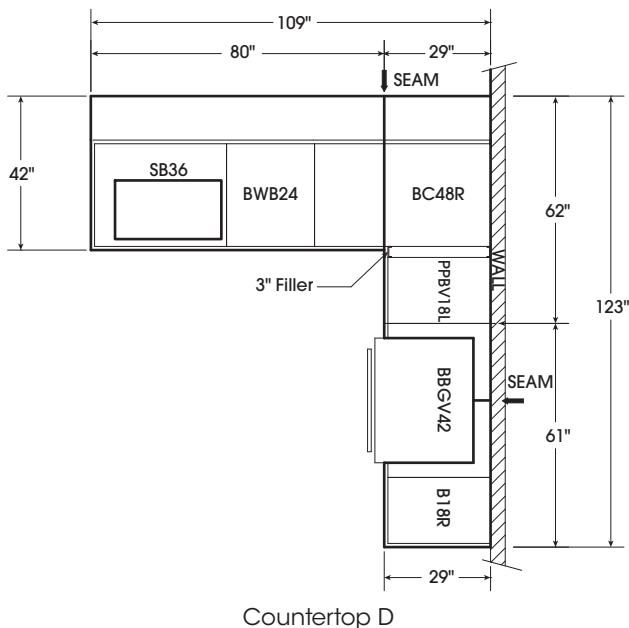

STAYCATION – Cabinet layout shown against wall

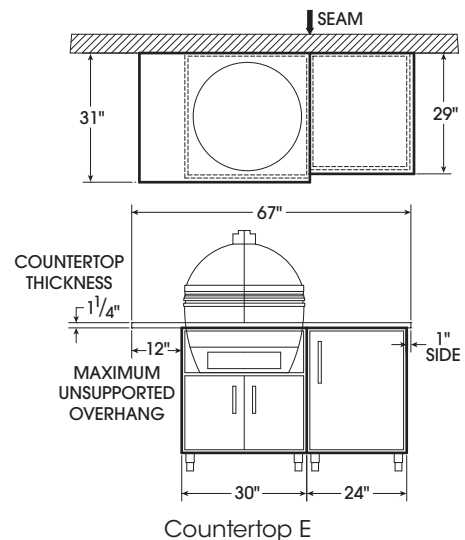

OASIS – Island layout with Finished Back Panels applied

REGAL – Cabinet layout shown against one wall and seating overhand

X-LARGE CERAMIC GRILL – Cabinet layout shown against a wall
